Portfolio

OBJECTIVE

Detail-oriented and highly organized web developer with 2.5 years of experience. Proficient in HTML, CSS, Bootstrap, JavaScript, and Angular, with a proven track record of delivering high-quality projects on time. Excited to leverage my skills and expertise in a dynamic team environment to contribute to the success of Satel System. Passionate about continuously learning and staying updated with the latest trends and technologies in web development.

EDUCATION

Bachelor's Degree, Computer Science, MIET Arts And Science College: Trichy   **2014-2017**

Higher Secondary School Education, St. Joseph's Higher Secondary School: Manjakuppam, Cuddalore   **2014-2017**

EXPERIENCE

Web Developer   **2021 - Present**
Satel Systems   Bangalore

- Developing web applications using Angular framework.
- Implementing user interfaces using HTML/CSS/Bootstrap/JavaScript and Angular components, and Writing efficient, testable, and reusable code.
- Collaborating with UX/UI designers to translate design wireframes into high-quality code, Ensuring cross-browser compatibility, and optimizing application performance.
- Utilizing version control systems such as Git for managing source code.
- Identifying and fixing bugs and performance bottlenecks, and Troubleshooting issues related to Angular applications.
- Writing unit tests using frameworks such as Jasmine or Karma to ensure code quality.
- Keeping up-to-date with the latest Angular features, tools, and best practices.
- Actively participating in knowledge-sharing sessions and seeking opportunities for skill enhancement.
- Optimizing application performance by implementing best practices such as lazy loading, code splitting, and caching.
- Understanding of RESTful APIs and experience integrating with them
- Utilized JSON for seamless data exchange between frontend and backend systems, ensuring efficient communication and smooth application operation.
- Demonstrated expertise in leveraging Angular lifecycle hooks to orchestrate component initialization, data retrieval, and resource disposal, ensuring efficient and seamless application operation.
- Familiarity with development tools such as Chrome DevTools for debugging, and IDEs like Visual Studio Code for Angular development.
- Experience with npm (Node Package Manager) for managing project dependencies and scripts.
- Integrated observable streams using RxJS to handle asynchronous data and events within Angular applications.
- Developed reactive and scalable solutions by combining Angular pipes and observables to manage dynamic data rendering and user interactions.

WordPress Developer   **Mar 2021 — Oct 2021**
Satel Systems   Bangalore

- Creating custom WordPress themes from scratch based on design requirements.
- Ensuring responsiveness and compatibility with different devices and browsers.
- Integrating third-party plugins and configuring them to meet project requirements, and Modifying and extending the functionality of existing plugins when necessary.
- Optimizing website performance by implementing caching, lazy loading, and other performance-enhancing techniques.
- Minifying CSS and JavaScript files, optimizing images, and reducing server response time.

Sales Executive   **2019 - 2020**
Fangs Technology Pvt Ltd (vivo-TN)   Chennai

- Exceeding sales targets set by the company, which may include targets for revenue, unit sales, market share, or other key performance indicators (KPIs).
- Identifying and prospecting potential customers, including individual consumers, retailers, distributors, and corporate clients, to expand Vivo's customer base.
- Developing a comprehensive understanding of Vivo's products, including smartphones, accessories, and related services, to effectively communicate features, benefits, and value propositions to customers.

- Building and maintaining strong relationships with key stakeholders, including retailers, distributors, channel partners, and corporate clients, to ensure customer satisfaction and loyalty.
- Monitoring market trends, competitor activities, and consumer preferences to identify sales opportunities, anticipate market changes, and develop effective sales strategies.
- Providing pre-sales and post-sales support to customers, including addressing inquiries, resolving complaints, and assisting with product setup, warranty claims, and after-sales service requirements.
- Providing training and product knowledge sessions to retail staff, distributors, and channel partners to enhance their understanding of Vivo's products and improve their sales capabilities.
- Adhering to company policies, ethical standards, and regulatory requirements in all sales activities, including pricing, promotions, advertising, and customer interactions.

Activation Officer   **2018 - 2019**
Reliance Jio Infocomm Ltd   Chennai
- Facilitate the onboarding process for new customers by guiding them through the activation procedures for Jio's products and services, such as mobile connections, broadband services, digital applications, and other offerings.
- Verify the completeness and accuracy of customer documentation required for activation, including identity proofs, address proofs, and any other relevant documents as per company policy and regulatory requirements.
- Handle the distribution of SIM cards to customers and ensure proper activation following the prescribed procedures, including verification of customer details and adherence to Know Your Customer (KYC) norms.
- Oversee the end-to-end activation process, from customer registration to service activation, ensuring timely completion and adherence to quality standards and regulatory guidelines.
- Address any issues or challenges encountered during the activation process promptly and effectively. This may involve troubleshooting technical issues, resolving documentation discrepancies, or coordinating with internal teams for resolution.
- Ensure compliance with all regulatory requirements and company policies related to customer activation, documentation, and data privacy to mitigate any potential risks or legal issues.
